

BLACK BALLOONS

PRESS KIT / BAND INFORMATION

LOUD. DIRECT. IMAGES IN YOUR HEAD.

Black Balloons have been rehearsing in their hallowed space in Leichlingen's industrial district since 2014. The punk quartet has written numerous songs there and released two albums. Their debut, "Social Disgrace", came out in 2018. In 2025, their own label, Rock-N-Record, released their second, self-titled album, "Black Balloons". Both are available on the major streaming services and on good old-fashioned CD. The band has played concerts and festivals around the region, bringing infectious, exhilarating energy to the stage. Now the Balloons want to reach beyond their home turf and bring that energy to your venue. You won't regret it!

Their influences span punk, hardcore and alternative. German-speaking reference points include FJØRT, Adam Angst and Escapado; Basement and Movements also offer useful comparisons. BLACK BALLOONS have developed a sound that gives every song its own distinct character: sometimes atmospheric and gentle, sometimes loud and in your face!

Compelling lyrics and catchy melodies paint pictures in your head. By the second chorus, the songs already feel familiar and stay with you. Some are in German, some in English - anything goes! The guitars complement each other and join the bass to build a wall of sound as solid as concrete. Carefully crafted drum patterns and ideas give the songs their drive.

The YouTube videos for "DONNERKEIL" and "I WOULD DO ANYTHING" show the band's range. Now Black Balloons are ready to leave their nest in the industrial district and get out there!

THE BAND AT A GLANCE

LINE-UP
4 people · 2 guitars
Bass · Drums
